Jl. Tripang No.11, Turangga, Kec. Lengkong, Kota Bandung, Jawa Barat 40264

Fresh graduate in Informatics with a strong interest in data analytics, data science, and machine learning. Experienced in developing end-to-end machine learning projects and conducting data analysis. Proficient in Python, SQL, and Power BI. Analytical, reliable, and effective working independently or in teams.

Education

Universitas Telkom - **Kabupaten Bandung, Indonesia** Sep 2022 - Apr 2026 (Expected)

Bachelor of Informatics, 3.56/4.00

- Graduated cum laude in 3.5 years with specialization in Data Science & Intelligent System.
- Presented final project (thesis) titled 'Recommender System for App Store Applications Based on Heterogeneous Graph Neural Networks' at an international conference.
- Completed multiple data-focused projects, such as implementing data cleansing, modeling, data visualization, and dashboard creation.
- Experienced in building simple websites and applications.

Work Experiences

Telkomsel - **Jakarta Selatan, Indonesia** Jul 2025 - Aug 2025

Data Analyst Intern

- Automated monthly asset capitalization reports by integrating Excel, MySQL (SQL queries), and Power BI, transforming manual reporting processes into a structured dashboard system.
- Designed and developed interactive dashboards to monitor financial and asset-related KPIs, enabling faster and more accurate management decision-making.
- Performed data cleaning, validation, and reconciliation to ensure accuracy and consistency across multiple data sources.
- Improved reporting efficiency by reducing manual processing time and minimizing human error through data automation.

Organization

Google Developer Student Groups Telkom University - **Kabupaten Bandung, Indonesia** Dec 2023 - May 2024

Member

- Actively participated in 10+ technical webinars and talks on Google technologies, UI/UX, and software project management.

Gamakarya - **Kota Bandung, Indonesia** Aug 2021 - Mar 2022

Logistics Division Coordinator

- Coordinate logistical needs to support the smooth running of all event activities, from preparation to implementation.
- Communicate and collaborate with vendors, suppliers, and other third parties to ensure the completeness of event equipment and facilities.
- Create a logistics budget, procure supplies, and control the distribution of necessary items according to the schedule and event requirements.
- Develop the logistics team's operational schedule and supervise the implementation of tasks to ensure that all preparations run according to plan.

Skills

- **Certification** (2025): Microsoft Certified: Azure AI Fundamentals
- **Soft Skills**: Teamwork / Collaboration, Communication, Analytical thinking, Problem solving, Attention to detail, Leadership, Time management, Adaptability, Initiative
- **Hard Skills**: Python, R, Java (basic), Microsoft Power BI, Tableau, Microsoft Office, Google Looker Studio, R Studio, MySQL, Oracle, Laravel, Google Colab, Jupyter notebooks, Microsoft Fabric, GitHub, Linux
